AMCOS RULING ON PDF MUSIC

BANDS, OTHER THAN SCHOOL BANDS THAT HAVE AN AMCOS LICENCE, ARE NOT ALLOWED TO PHOTOCOPY ANY PARTS.

A single print copy made from a PDF is treated in the same way under the AMCOS schools' agreement as a purchased original copy of print music. ie. marking requirements apply to the copies and the original and the copying limits for bands under the agreement must be followed.
PDF files must not be printed to file and saved in a computer. That would be the same as making an extra copy of the

Ed Wilson's simply jazz Play - a - long series

James Morrison says:

"Ed Wilson's understanding of the jazz genre and his ability to explain things in a simple, direct way, make 'Simply Jazz' a must for any teacher or student wanting to further their understanding of this music."

Ideal for student's home practice, classroom teaching, one on one teaching, full band arrangements

SIMPLY JAZZ Volume #1 with play-a-long CD LEVEL 2

SIMPLY JAZZ Volume #2 with play-a-long CD LEVEL 2+

SIMPLY JAZZ Call & Response - chords & scales with play-a-long CD + bonus CD with extended tracks LEVEL 2 - ADVANCED

To hear samples of these tracks go to www.wilsonpub.com.au and listen to the MP3 files

Student books Volumes 1 & 2 each have their own CD and fit with the following:

TRACKS 1 - 5

These are 5 full band arrangements for your band to play (approx. 3 minutes duration each).

Optional written solos are supplied on the parts. These written solos are recorded on the CD by Ed Wilson and the best of Sydney's musicians. The ideal instrumentation is: 5 saxes, 6 brass, 5 rhythm. Though they will also work extremely well with a Small Combo' (Mix & Match): trumpet, alto sax, tenor sax, trombone, baritone sax & rhythm section or similar instrumentation.

The TRUMPET 1 part is all in the staff and the PIANO part is notated. The GUITAR part has a chord guide sheet. The charts all have different feels - Latin, Swing, Rock, Funk. - Melody, chords & scales supplied. Every note is well articulated and with Jazz effects.

TRACKS 6 - 10

These are the same five tunes recorded without the solos. The melody, chords and scales are supplied on the parts. The student plays along with the CD, playing the melody and creating their own solo. This section of the CD is ideal for home practice, classroom teaching or one on one teaching. The rhythm section parts are written out - so you can add a couple of horns and "wait" away.

SIMPLY JAZZ CALL & RESPONSE BOOK HAS IT'S OWN CD + BONUS CD

The Simply Jazz Call & Response with play-a-long CD is built around variations of the Bb concert scale. Ed has featured the seven most popular scales used in Jazz throughout the Call & Response book. Following each one of the seven scales, that scale is then featured all of the keys.

The bonus CD has the seven scales that have been featured throughout the CALL & RESPONSE book. Each track runs for approximately ten minutes without key changes. This gives students plenty of time to become comfortable playing in the one key.
